PROFILE SUMMARY

With over 15 years of experience practicing Odissi and 10 years of teaching experience from a young age, teaching has always been in my blood. Along with imparting odissi my foundation is multidisciplinary with forms like semi classical, western, contemporary, hip hop, ballet and bollywood. Over the years teaching has also helped me develop a sense of empathy and compassion in order to learn to connect better with children and adults. My commitment to continuous learning and exploration drives my work both as a performer and educator, always seeking to keep the legacy of dance alive for future generations.
