Profile

A dedicated Bharatanatyam artist and teacher with a strong foundation in classical technique and theory, I bring years of experience in training students across age groups. Trained under esteemed gurus, I combine traditional pedagogy with a creative, student-centered approach. My classes emphasize discipline, expression, and cultural context, aiming to build both skill and appreciation for the art form. I have choreographed and directed several student performances, encouraging confidence and stage presence. Passionate about nurturing the next generation of dancers, I am committed to preserving and sharing the rich legacy of Indian classical dance.
